Review article

Carbon sequestration in the agricultural soils of Europe
A. Freibauer, M.D.A. Rounsevell, P. Smith and J. Verhagen 1

Research papers

^{129}Xe NMR spectroscopy of adsorbed xenon as an approach for the characterisation of soil meso- and microporosity
S.V. Filimonova, H. Knicker, W. Häusler and I. Kögel-Knabner 25

Fractal features of soil particle size distribution and the implication for indicating desertification
Y.Z. Su, H.L. Zhao, W.Z. Zhao and T.H. Zhang 43

Potential terrain controls on soil color, texture contrast and grain-size deposition for the original catena landscape in Uganda
D.J. Brown, M.K. Clayton and K. McSweeney 51

Changes in soil microbial biomass and aggregate stability following burning and soil rehabilitation
M.C. Villar, V. Petrikova, M. Díaz-Raviña and T. Carballas 73

Vertisol genesis in a humid climate of the coastal plain of Texas, U.S.A.
L.C. Nordt, L.P. Wilding, W.C. Lynn and C.C. Crawford 83

Book review 103

Special Issue

Biogeochemical processes and the role of heavy metals in the soil environment

Edited by

J. Weber and A. Karczewska (Guest Editors)

Preface 105

Research papers

Microbial influence on metal mobility and application for bioremediation
G.M. Gadd 109

Role of assisted natural remediation in environmental cleanup
D.C. Adriano, W.W. Wenzel, J. Vangronsveld and N.S. Bolan 121

Soil–plant transfer of trace elements—an environmental issue
A. Kabata-Pendias 143

Copper accumulation, distribution and fractionation in vineyard soils of Victoria, Australia
U. Pietrzak and D.C. McPhail 151

Geochemistry and partitioning of trace metals in acid sulphate soils in Sweden and Finland before and after sulphide oxidation
G. Sohlenius and I. Öborn 167

Microbial leaching of uranium and other trace elements from shale mine tailings at Ranstad
B.E. Kalinowski, A. Oskarsson, Y. Albinsson, J. Arlinger, A. Ödegaard-Jensen, T. Andlid and K. Pedersen. 177

Arsenic and zinc biogeochemistry in pyrite mine waste from the Aznalcóllar environmental disaster
A.A. Carbonell-Barrachina, A. Rocamora, C. García-Gomis, F. Martínez-Sánchez and F. Burló 195
Dispersion of natural arsenic in the Malcantone watershed, Southern Switzerland: field evidence for repeated sorption–desorption and oxidation–reduction processes
H.-R. Pfeifer, A. Gueye-Girardet, D. Reymond, C. Schlegel, E. Temgoua, D.L. Hesterberg and J.W. Chou 205
In vitro remobilization of Cd immobilized by fungal biomass
E. Kurek and M. Majewska 235
Relationship between the chemical form of nickel applied to the soil and its uptake and toxicity to barley plants (*Hordeum vulgare* L.)
J. Molas and S. Baran 247
Chemical composition of soils and plant species in the Polar Urals as influenced by rock type
M.N. Kataeva, N.V. Alexeeva-Popova, I.V. Drozdova and A.I. Beljaeva 257
Trace metals in the soil and in *Quercus ilex* L. leaves at anthropic and remote sites of the Campania Region of Italy
G. Maisto, A. Alfani, D. Baldantoni, A. De Marco and A. Virzo De Santo 269
Sensitivity analysis of the distribution coefficient, Kd, of nickel with changing soil chemical properties
S. Staunton 281
The effects of MnO_2 on sorption and oxidation of Cr(III) by soils
Z. Stepniewska, K. Bucior and R.P. Bennicelli 291
Effect of organic wastes on the extractability of cadmium, copper, nickel, and zinc in soil
A. Karaca 297
Formation of new radicals in humic acids upon interaction Pb(II) ions
M. Jerzykiewicz 305
Degradation of low molecular weight organic acids complexed with heavy metals in soil
G. Renella, L. Landi and P. Nannipieri 311
Influence of different oxidation states of chromium (VI, III) on soil urease activity
A. Samborska, Z. Stepniewska and W. Stepniewski 317
